Introducing our revolutionary new  
**ONE Water Filtration Simplified<sup>™</sup>**

Get rid of small and inefficient 2.5" or 4.5" plastic housings. The ENPRESS **Cartridge Tank<sup>™</sup>** is a corrosion-free liquid filtration solution offering extended life, service and chemical resistance. It also has an easily accessible wide mouth opening so you can customize it with any of our filters.

## Filtration Solutions

### Poly-UF™

**ENPRESS Poly-UF™** its Ultra Filtration System, is a powerful new tool for your water treatment tool box. It's easy to install and maintain. Treats colloids, bacteria, cysts, viruses and tannins. High throughput 12gpm flow rates with 0.02 micron filtration and low waste discharge. Standard Control Valve.

### Vortech®

**ENPRESS Vortech™** full plate bottom distributor can save a household over 225 gallons of water per month by creating fluidity of the media bed and extending contaminant removal capacity...even with backwash rates reduced by 30% or more. It eliminates gravel under-bedding and reduces water use.

# WE'VE BEEN BUSY.

Lightweight.

Extended life.

Easy to install.

## Water Filtration Simplified™

### Mid-Vortech®

**ENPRESS Mid-Vortech®** saves water, salt and the environment, by eliminating a second media tank and valve, by creating physical separation of medias within a single tank.
